
Pharmacy-Based Immunization

Delivery is an innovative and interactive training program that teaches pharmacists the skills necessary to become a primary source for vaccine information and administration. The program teaches the basics of immunology and focuses on practice implementation and legal/regulatory issues.

NOTE: Please be advised that this program is subject to postponement or cancellation if the required minimum number of registrants is not met 30 days prior to the program date.

PHARMACY BASED IMMUNIZATION DELIVERY

HOSTED BY CREIGHTON UNIVERSITY SCHOOL OF PHARMACY AND HEALTH PROFESSIONS

The goals of the program are to:

- Provide comprehensive immunization education and training;
- Provide pharmacists with the skills, resources and materials necessary to establish and promote a successful immunization service;
- Train pharmacists to identify at-risk patient populations needing immunizations; and
- Train pharmacists to maintain necessary immunization records.

Pharmacy-Based Immunization Delivery includes:

- Self-Study Learning Module
 - Primer on the basics of immunology, vaccine information and administration
 - Complete clinical information
 - Roadmap to negotiate legal and regulatory requirements
 - Strategies for developing a profitable service
 - Essential CDC references with pharmacist-specific study guides and highlights
- The 1½-day training seminar provides
 - Recap of vaccines, antibodies, diseases, & microbes
 - Marketing and reimbursement how-to's
 - Vaccine administration training
 - Documentation and record keeping
 - Problem solving and patient care strategies
 - Case studies and pharmacist-specific examples
